Many Potential for this game, worth trying out and its fun to play with friends :). By this game, we can get new experiences.

commun with animals, and be concerned about each of them, When was it born? What is this name? Everything around me is not just resources like background. I enter into another world of ISLET, and make so many relation between player and land. I really recommend ISLET to you.. So far so good. Not very crowded, so less troll player right now. the GM is also nice, they give some item to the new player.. Although there is "a lot to do" its more like there is a lot to grind. taking several hours to progress past wood tools isnt quite what I was expecting. I decided to stop playing just short of 2 hours so I could still refund the game. Its slow and I mean ing slow. it takes like 2 hours to do in this game what would take 30 seconds to do in Minecraft (the example being progressing past wood tools, which I wasnt even able to in 2 hours.. game is dead
